# WATER STORAGE CALCULATOR

*One gallon per person, per day. Drinking plus basic sanitation.*

## GO-BAG: 3 DAYS

[ ] people × 1 gal × 3 days = [ ] gallons

## AT HOME: AIM FOR 2 WEEKS

[ ] people × 1 gal × 14 days = [ ] gallons

## PETS

Pet + weight: _____

Daily water (ask your vet): _____

Days × daily amount = _____

Many sources cite roughly 1 ounce per pound of body weight per day for dogs and cats. Your vet's number wins.

## STORE MORE IF

- ☐ It's hot: heat can double what people need
- ☐ Anyone is pregnant, nursing, or sick
- ☐ There are children in the house
- ☐ You'll need water for cooking or cleaning

## STORAGE RULES

- ☐ Store-bought: keep sealed, follow the expiration date
- ☐ Filled yourself: use clean food-grade containers and replace every 6 months
- ☐ Keep it cool, dark, and away from chemicals
- ☐ Never use containers that held milk, juice, or anything toxic

## ROTATION LOG

| CONTAINER | GALLONS | FILLED / BOUGHT | REPLACE BY | LOCATION |
